What is PCAN?

Many people do not have health insurance. PCAN helps them find affordable care.

PCAN is the Primary Care Access Network. PCAN has family doctors, walk-in clinics, and other medical services. Most are located in Orange County.

Medical Homes

Having a medical home means having a family doctor. People who have family doctors often have better health. They miss less work or school, and have a regular place to go when they are ill.

A family doctor treats earaches, sore throats, coughs and other minor illnesses. The doctor can also help people with diabetes, asthma, high blood pressure, etc.

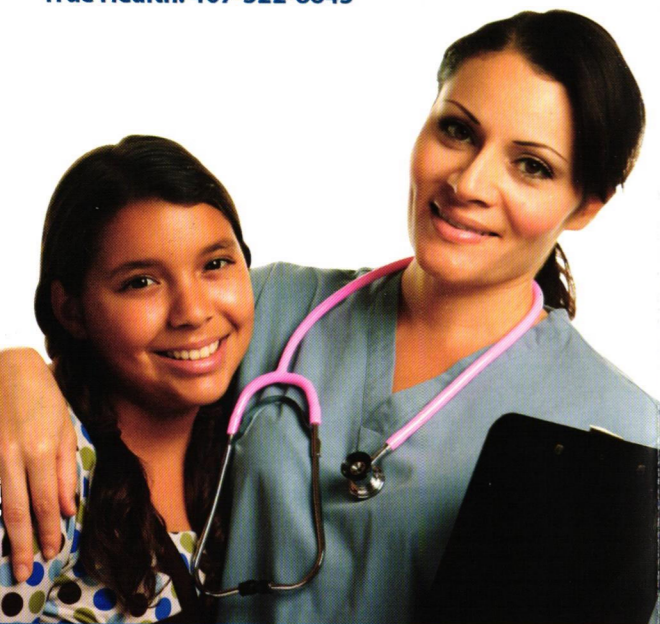

PCAN medical homes see patients with and without insurance. There are many locations in Orange County. Check the list to make an appointment at an office near you.
