

# Together We Screen

Do you qualify for a **FREE** or **low-cost** breast and cervical cancer screening?

The Florida Breast and Cervical Cancer Early Detection Program provides **free or low-cost** clinical breast exams, mammograms and pap test.

Women show up for each other — we remind, check in and care. Getting screened for breast and cervical cancer is one more way to protect the women we love — and ourselves.

Screening is simple, important and can save lives. So get screened and share this information with the women you love.

**Together, we care. Together, we screen.**

## Our Program Offers:

- Confidential screenings with trusted doctors.
- Care coordination for abnormal exams.
- Breast and cervical cancer treatment may be paid through Medicaid if qualified.
