To obtain local county health department contact information, see www.FloridaHealth.gov/CHDEpiContact. See www.FloridaHealth.gov/DiseaseReporting for other reporting questions. HIV/AIDS and HIV-exposed newborn notification should be made using the Adult HIV/AIDS Confidential Case Report Form, CDC 50.42A (revised March 2013) for cases in people ≥13 years old or the Pediatric HIV/AIDS Confidential Case Report, CDC 50.42B (revised March 2003) for cases in people <13 years old. Please contact your county health department for these forms (visit www.FloridaHealth.gov/CHDEpiContact to obtain contact information). Congenital anomalies and neonatal abstinence syndrome notification occurs when these conditions are reported to the Agency for Health Care Administration in its inpatient discharge data report pursuant to Chapter 59E-7 FAC. Cancer notification should be directly to the Florida Cancer Data System (<http://fcds.med.miami.edu>). All other notifications should be to the CHD where the patient resides.
